TROPICAL CYCLONE BULLETIN NR. 13
Tropical Depression MAYMAY (KUJIRA)

Issued at 11:00 AM, 06 August 2026
Valid for broadcast until the next bulletin at 2:00 PM today.

"MAYMAY" HAS WEAKENED INTO A TROPICAL DEPRESSION.

Location of Center (10:00 AM)

The center of Tropical Depression MAYMAY was estimated based on all available data including those from Benguet Doppler Weather Radar **in the vicinity of Tanudan, Kalinga (17.3°N, 121.2°E).**

Intensity

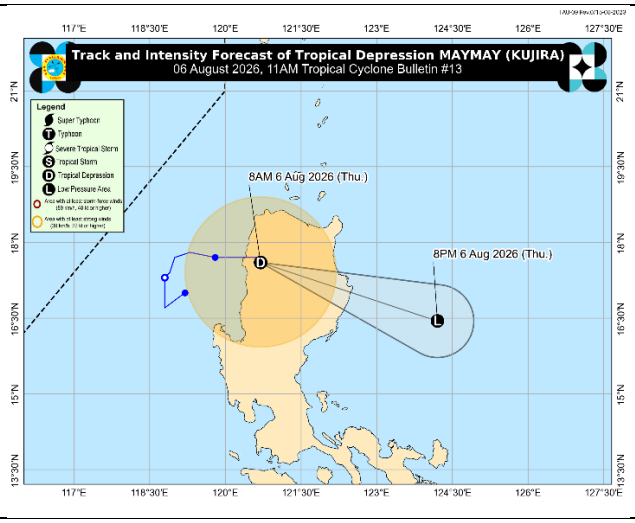
Maximum sustained winds of **55 km/h** near the center, gustiness of up to **90 km/h**, and central pressure of **1000 hPa.**

Present Movement

Southeastward Slowly

Extent of Tropical Cyclone Winds

Strong winds extend outwards up to **180 km** from the center



TRACK AND INTENSITY FORECAST

Date and Time	Center Position			Intensity		Movement dir. and speed (km/h)
	Lat. (°N)	Lon. (°E)	Location	MSW (km/h)	Cat.	
12-Hour Forecast 8:00 PM 06 August 2026	16.4	124.2	220 km East of Casiguran, Aurora	-	LOW	ESE 35

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT

TCWS No.	Luzon	Visayas	Mindanao
1 Wind threat: **Strong winds**	**The southern portion of Babuyan Islands** (Calayan Is., Dalupiri Is, Fuga Is., Camiguin Is.), **Ilocos Norte, Ilocos Sur, La Union, the northwestern portion of Pangasinan** (Bolinao, Anda, Bani), **Apayao, Abra, Kalinga, Mountain Province, Ifugao, Benguet, mainland Cagayan, Isabela, Quirino, Nueva Vizcaya and the northern and central portions of Aurora** (Dilasag, Casiguran, Dinalungan, Dipaculao)	-	-
	Warning lead time: **36 hours** Range of wind speeds: **39 to 61 km/h (Beaufort 6 to 7)** Potential impacts of winds: **Minimal to minor threat to life and property**

Tropical Depression MAYMAY (KUJIRA)
Issued at 11:00 AM, 06 August 2026
Valid for broadcast until the next bulletin at 2:00 PM today.

OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

Refer to **Weather Advisory No. 19 issued at 11:00 AM today** for the heavy rainfall outlook due to TC MAYMAY and the Southwest Monsoon.

Severe Winds

The wind signals warn the public of the general wind threat over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Minor to moderate impacts** from gale-force winds are possible within any of the areas under Wind Signal No. 2.
- **Minimal to minor impacts** from strong winds are possible within any of the areas under Wind Signal No. 1.

The Southwest Monsoon and the periphery of MAYMAY will bring **strong to gale-force gusts** over the following areas (especially in coastal and upland areas exposed to winds):

- **Today until Saturday (06 to 08 August):** Most of the country.

HAZARDS AFFECTING COASTAL WATERS

A Gale Warning is in effect over the western seaboard of Northern Luzon. For more details, refer to Gale Warning No. 5 issued at 5:00 AM today.

24-Hour Sea Condition Outlook
Up to very rough seas over the following coastal waters:

- **Up to 4.5 m:** The northern seaboard of Batanes.
- **Sea travel is risky for all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.**

Up to rough seas over the following coastal waters:

- **Up to 4.0 m:** The seaboards of Babuyan Islands, Ilocos Sur, La Union, and Pangasinan; the northeastern seaboard of mainland Cagayan; the remaining seaboard of Batanes.
- **Up to 3.0 m:** The seaboards of Ilocos Norte, Isabela, and northeastern Aurora; the northern seaboard of Camarines Norte and Camarines Sur; the northern and eastern seaboards of Catanduanes and Northern Samar; the eastern seaboard of Davao Oriental; the remaining seaboard of mainland Cagayan.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced of operating ill-equipped vessels.**

Up to moderate seas over the following coastal waters:

- **Up to 2.5 m:** The seaboards of Zambales, Lubang Islands, and Surigao del Sur; the western seaboards of Bataan, Cavite, Batangas, Occidental Mindoro, Calamian Islands, northern mainland Palawan, and Kalayaan Islands; the northern and eastern seaboards of Polillo Islands; the eastern seaboards of Albay, Sorsogon, Eastern Samar, Dinagat Islands, and Siargao-Bucas Grande Islands; the remaining seaboards of Aurora and Camarines Norte.
- **Up to 2.0 m:** The seaboards of Romblon and Davao Occidental; the northern seaboard of Cagayancillo Islands; the western seaboards of mainland Palawan, Masbate, and Negros Occidental; the southern seaboards of Antique, Iloilo, Guimaras, and Davao Oriental; the remaining seaboards of Batangas, Occidental Mindoro, and Kalayaan Islands.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions**.

Other coastal waters have forecast wave heights of less than 2.0 m.

TROPICAL CYCLONE BULLETIN NR. 13
Tropical Depression MAYMAY (KUJIRA)
Issued at 11:00 AM, 06 August 2026
Valid for broadcast until the next bulletin at 2:00 PM today.

TRACK AND INTENSITY OUTLOOK

- **It must be emphasized that heavy rainfall and severe winds may still be experienced in localities outside the landfall point and the forecast confidence cone. Refer to "Other Hazards affecting Land Areas" for more details. Furthermore, the track may still shift within the limit of the forecast confidence cone.**
- On the latest forecast track, MAYMAY will traverse the mountainous terrain of Northern Luzon before emerging over the eastern coastal waters of Isabela or Cagayan.
- MAYMAY is forecast to continue weakening while moving further inland and may be downgraded into a remnant low this afternoon or evening. However, due to interaction with the rugged terrain, an earlier weakening is possible. The remnant low of MAYMAY will move generally southeastward until it merges into the larger circulation of Tropical Cyclone DOLPHIN.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 2:00 PM today.
